

At the September 2010 National Governor's meeting in St. Louis, I met with the Regional Executives to come up with a plan for Clubs to get a copy of the NCCC Insurance policies, if requested. It had been stated that the Executive Board and the Business Manager were trying to keep our insurance policies a secret. That certainly was not the case, but it was a matter of how to get the policies copied and sent to the Clubs that had requested it.

The following procedures are now in place for a Club to receive a copy of the NCCC Insurance policies:

- Club submits request for copy of NCCC Insurance policies to Club's Governor
- Club's Governor submits request to the Regional Executive
- Regional Executive submits request to the National Business Manager
- National Business Manager contacts Legacy Insurance for a copy of the policies to be sent to the Club

The reason requests will go thru your Regional Executive is so they can ask questions and perhaps answer any of the Club's questions without having to get a copy of the insurance policies.

I am always available to answer any of your questions as is Autumn Williamson at Legacy Insurance Network.

Thanks,

Hal Tumbleson
NCCC Business Manager
