

FCOA MEMBER #2400 ~ HEATH

In February 2004, when San Jacinto Corvette Club members Frank and Paula found the FCOA application in their NCCC new member packet, they thought it would make a great surprise for their Grandson Heath. Little did they know that Heath's application would arrive just in time for him to be assigned FCOA membership #2400! Although they are fairly new to NCCC and its Southwest Region, Frank and Paula are members of several Corvette Clubs as well as other car clubs in the Houston area.

Soon-to-be 5 year old Heath attends pre-school and has already made up his mind about a few things: blue is the best color, vegetables are the worst thing to eat and any kind of building toys, especially GeoMags, are at the top of the list. Heath hasn't participated in many Corvette activities yet as he lives far from his Grandpa. He liked sitting in Grandpa's Vette when he last visited and loves his toy Corvette. Grandpa's Vettes are a '72 red LT1 convertible that has been in the family since 1986 and a 2000 Mag Red/Oak convertible with almost every option available including the mag wheels.

Heath likes building things, doing puzzles and cooking when he's not working on or fixing stuff with his Dad. He really enjoys working on cars and motorcycles with his Dad and Grandfather. You can see from this picture that those surroundings really make him smile. He is very curious as to how things work and is mechanically-inclined with his toys. Who knows, some day he might be working on your Vette!

Congratulations, Heath, for being FCOA member #2400!
