

FCOA MEMBER #4000 ~ NOAH

Noah's application for FCOA membership came just at the right time in mid-January 2009 for him to be assigned FCOA membership #4000! Also in the envelope was an application for his 13-year old brother Brandon who was assigned FCOA #3999. His parents, Michael and Tracy, have been members of Cumberland Valley Corvette Club in the East Region for nine years. Right now they have a Polo Green 1995 coupe and previously owned a 1968 green convertible ~ no wonder Noah's favorite color is green!

Seven-year old Noah loves attending school as a first grader and is an excellent student. When he's not in school Noah's life is filled with many activities including playing with his dog Morgan, hanging out with his friends and various sports. His favorite toys are Matchbox and Hot Wheels cars as well as Legos and his Nintendo DS. As you can see building model cars with his dad, collecting cars (especially Corvettes) and go-kart racing with his big brother Brandon are also high on his list of fun things to do. He's always excited to help in the garage where he learns all about cars from his dad who builds and restores cars as a hobby.

Noah really likes attending Cumberland Valley Corvette Club events and the Kids at Carlisle activities. Following in his brother Brandon's footsteps, his black 2005 Corvette convertible placed first in the model contest in 2007. Here is Noah with his award, the winning model and some of the other cars in his collection. It's a safe guess that there will be lots of Corvettes in his future! You can see from the picture below that Brandon is proud of Noah's accomplishment.

Congratulations, Noah, for being FCOA member #4000!
