A CORVETTE COLORING BOOK!!!

SAMPLE TEXT ~ page 31:

GENERATION FOUR (C-4) 1983-1996

With assembly operations relocated to Bowling Green, Kentucky, Corvette had the challenge of refitting a plant engineered for the C-3 model to fit the new totally redesigned 1983 model. Manufacturing process problems created the necessity to skip one year of production leaving only one white 1983 car, which is owned and displayed at the Corvette Museum in Bowling Green.

In 1986 Corvette restored the convertible model and once again paced the Indy 500 race. This pace car was painted a bright yellow color and looked right "at home" with the colorful racecars it was pacing (Page 32).

After-market companies were anxious to improve what some considered a bland, underpowered car. In 1987 the Callaway Company offered a version that had eye appeal and super power with a twin turbo-charged engine (Page -33).

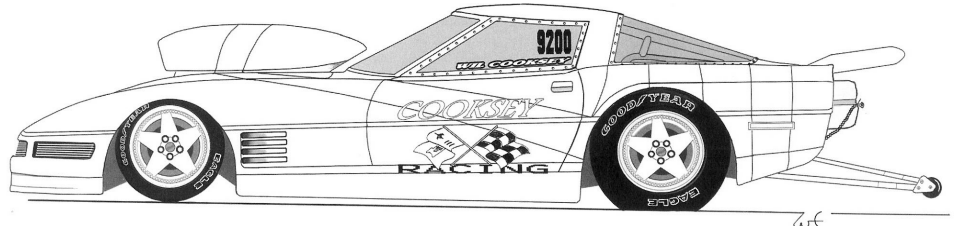

Every major drag race strip I have visited features Corvette-bodied, highly-modified, Corvettes. The weight distribution, the famed Corvette engine and the aesthetic styling make Corvette racers a favorite.

This awesome example (page 34) is from Bowling Green, KY and can be seen in action at area drag strips.

In 1988 the Corvette celebrated its' 35th anniversary with a special edition bearing unique emblems and interior appointments. These coupes were all painted white.

1991 brought yet another "gill" change as one of the few exterior changes for this generation (Page 35).

SAMPLE DRAWING ~ page 34:

This 45-page, spiral-bound book was created by Wayne Edwards for the enjoyment of both kids and adults. The line drawings of all 6 Corvette generations will inspire creativity in everyone. The book is more than a "coloring book"! Each generation is explained in a historical context before illustrations of that generation are presented in "color book" form.

Because of the generosity of the author, NCCC's youth organization, Future Corvette Owners Assn., receives a portion of the sale of each book as a fundraiser.
