

It was a "Lucky" Friday the 13th for Brenda Fournier when her ticket was drawn this past July as the winner of the beautiful custom HatchVette at the conclusion of the National Council of Corvette Clubs annual convention at Colorado Springs, Colo. Having Brenda and her husband Larry in attendance at the convention served to double the dramatic impact of the drawing. According to Tom Henry, President of the NCCC, the HatchVette raffle was a huge success with more than \$31,000 in net proceeds going to the Spina Bifida Association of America.

In winning this exciting prize, Brenda introduced a new wrinkle to raffledom by virtue of her method of acquiring the winning ticket. Get this folks—she won what ultimately became the winning ticket in a raffle at a meeting of the Flint Corvette Club, where she and Larry are members. If someone were to calculate the odds involved in the combined raffles, Brenda would obviously be the longest of the longshots.

Brenda, 26 years old, works for Michigan Bell Telephone Co., training company personnel in computer systems. Husband Larry, 32, is a 16 year employe of Chevrolet Die and Engineering in Flint. Brenda, Larry, and their HatchVette reside in Davison, Mi., a Flint suburb.

Brenda Fournier of Davison, Mi., wins NCCC-Spina Bifida HatchVette.
