Miss Maxine Sands  
Convention Secretary  
243 E. 25th Street  
Jacksonville, Florida 32206

Dear Maxine:

✍ Pardon my delay in responding to your note of appreciation. I was away from the attraction on vacation at the time your letter arrived and am just now able to turn my attention to unanswered correspondence.

✍ It was Marineland's pleasure to have the Annual National Corvette Clubs Convention group visit the attraction. We'll not long forget the impressive sight of all the Vettes as they rolled into the parking area. Above all, yours was a very attentive and orderly representation and that is really crediting a lot considering the hot weather and naturally crowded conditions that prevail during the peak of our season.

✍ Herein enclosed are some pictures of the scene that prevailed at Marineland on that day in July and the arrival shot of "Vette". Now you must admit that he is "sleek and streamlined and really built for speed" as our wire indicated. We hope you will make use of these pictures in publication.

✍ Again, thank the members of the North Florida Corvette Association for us and especially your fine officers. You might tell the fellows that I have had the opportunity to express personal dissatisfaction on certain fronts about the manner in which you were treated in Daytona Beach. Please do not judge everyone by the few who caused you displeasure. You produced a good convention in a fine city.

Sincerely,

A handwritten signature in black ink that reads 'Richard W. Edgerton'.
